

PQT[®]

The Industry Leader for a Reason.

PGT offers a robust suite of products

The nation's leading manufacturer of impact-resistant windows and doors can meet all your condominium needs.

For over 30 years, PGT has been manufacturing windows and doors utilizing the industry's most advanced technology, and delivering them on time, every time.

Our products meet or exceed AAMA and Miami-Dade requirements, passing the most rigorous wind and impact tests in the industry. In fact, PGT leads the industry in Miami-Dade NOA's.

Whether you are embarking on an exciting new construction project or remodeling, we can provide the windows and doors you need for protection, in designs you'll admire for their beauty.

All of our condominium-suitable products offer continuous overall protection and numerous key benefits including:

- Hurricane Protection
- Energy Efficiency
- Safety and Security
- Noise Reduction
- 99% Ultraviolet Ray Protection
- Reduced Insurance Rates

PGT WinGuard® America's Choice

America's best selling impact-resistant brand is available in both aluminum and vinyl. WinGuard products come in a variety of styles, popular frame colors, and a selection of grid patterns and options.

- **The Aluminum Series 700** comes standard with impact-resistant laminated glass and combines high design pressures with a wide array of options for the utmost in safety and style. The 10 year warranty on frame and laminated glass is the strongest in the industry.
- **The Vinyl Series 500** offers all the benefits of WinGuard, with the additional energy efficient features of our vinyl products. They are ENERGY STAR rated and come standard with laminated insulating glass sealed with Super Spacer nXt technology.

Over 3 million WinGuard units installed with 0 reported failures

PGT PremierVue® Strength and Elegance

PremierVue is PGT's premium vinyl product line offering elegant windows and doors with superior impact performance. PremierVue products with laminated insulating glass are ENERGY STAR rated. PremierVue is available in two different product lines:

- **The 2700 Series** incorporates a PVB interlayer and is ideal for custom homes and low-to-mid rise buildings.
- **The 2800 Series** has an SGP interlayer and higher design pressures than most vinyl and aluminum windows making it ideal for mid-to-high rise buildings.

Strength, elegance and performance make PremierVue the clear choice for well-appointed homes and condominiums.

PremierVue has better wind and impact ratings than any other vinyl impact system

PGT Architectural Systems® Custom and Commercial Grade

PGT's Architectural Systems serve the needs of customers in the commercial and residential high-rise window and door market.

- **The 3000 Series** features the safety of impact-resistance, ease of installation and maintenance. Their sleek look—comprised of more glass and less frame—allows unobstructed views.
- **The 800 Series** products have either impact-resistant laminated glass for protection against hurricane-force winds and flying debris, or single-pane glass in select products.
- **The Storefront 3500 Series** was developed for use in high design pressure applications; this commercial grade system provides the ultimate in impact-resistance and water intrusion protection.

The flexibility of Architectural Systems products allows you to tackle projects of any size or scale.

The 3000 Series combines safety with sophisticated aesthetics
