BEAUTY IS IN THE DETAILS

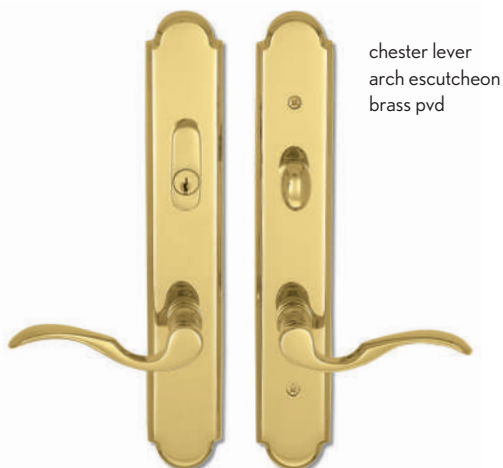

You want your home to express your style and your standards. That's why you selected Marvin® Windows and Doors. Now a superior collection of designer handles is readily available, offering a wide array of design options to complement your architectural style and complete your vision. These hardware selections look great with all our products. Just as importantly, they are engineered to operate dependably with your windows and doors.

The products you see here illustrate a simple truth regarding the design elements of form and function: innovation and tradition are not opposites. Instead, innovation is the natural extension of an exceptional dedication to craft.

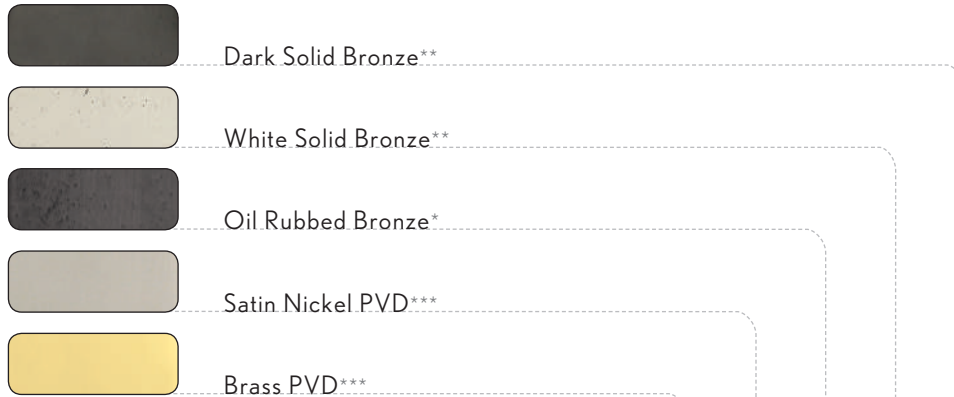

Ashley Norton

The Ashley Norton Collection features striking traditional and rustic hardware. Characterized by flowing lines and intricate detail, these designs combine the best styles of the past and the smartest innovations of present. Select a traditional Oil Rubbed Bronze, Dark Solid Bronze, or White Solid Bronze living finish that acquires a rich patina with age. Or opt for one of two Physical Vapor Deposition (PVD) finishes specially formulated to resist corrosion, abrasions and fading.

HANDLE FUNCTION Swinging multipoint handle designs available in active panel key, active panel non-keyed, inactive panel multipoint, and inactive panel dummy functions.

Sliding Door handle designs available in active panel key, active panel non-keyed, and inactive panel dummy functions.

SCREENS Swinging French Door – Ashley Norton levers are not recommended for use with sliding screens due to lever projection. Use swinging screens with these levers.

Sliding French Door – Ashley Norton pull handles are recommended for use with sliding screens.

NOTES

- Not all available handle, escutcheon, finish combinations are pictured. See chart for details.
- Swinging multipoint handle sets can be specified to accommodate 1³/₄" or 2¹/₄" panel doors.

* US10B living finish on a solid brass substrate.

** Dark and White Solid Bronze finishes is a rustic, character grade, living finish, produced utilizing a traditional bronze casting process.

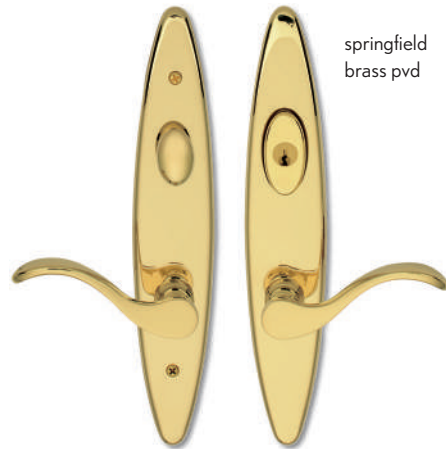

*** Physical Vapor Deposition (PVD), a static enduring finish.

BALDWIN®

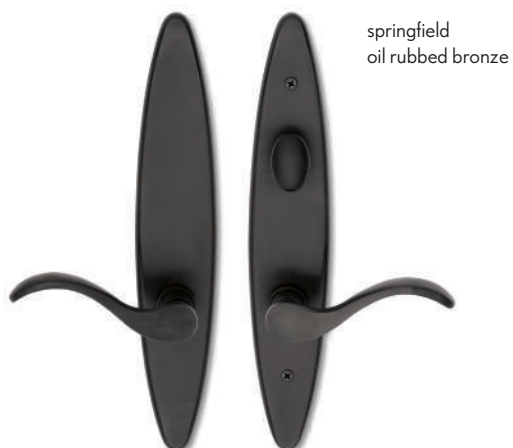

For more than sixty years, Baldwin has crafted remarkable solid forged brass hardware for fine homes. Besides offering a broad selection of living and lacquered finishes, Baldwin helped pioneer high performance Physical Vapor Deposition (PVD) finishes. Their vintage line includes Greek Revival, Colonial, Victorian, and Rustic architectural and decorative products. When you select Baldwin, you select lasting quality, luxurious style, and a legacy of superior craftsmanship that makes a statement.

Designs inspired by traditional French country architecture are the hallmark of the Bouvet LaForge Collection. Established in 1884, Bouvet combines traditional hand-forging methods with state-of-the-art manufacturing processes. To take just one example, their Cementex Treatment integrates zinc particles onto steel hardware at high temperatures to inhibit rust and discoloration. This combination of innovation and craftsmanship results in amazingly beautiful, remarkably durable wrought-iron handle sets.

NOBILUS

Luxury is detail.

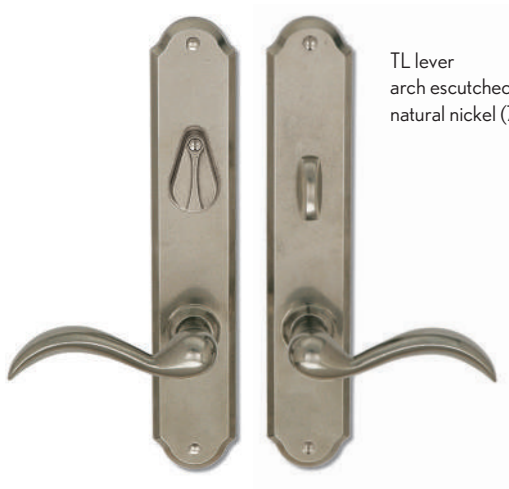

The stately and intricate handle sets of the Nobilus collection reflect both modern precision and old-world handcrafting. Each piece is investment-cast in solid bronze, a forging method that produced the most precise and intricate results possible in bronze hardware. Handle sets are then given a burnished natural finish or hand-rubbed oil patina finish. As a result, they become even richer and more beautiful with every use.

HANDLE FUNCTION Swinging multipoint handle designs available in active panel key, active panel non-keyed, inactive panel multipoint, and inactive panel dummy functions.

Sliding Door handle designs available in active panel key, active panel non-keyed, and inactive panel dummy functions.

SCREENS Swinging French Door – Nobilus levers are not recommended for use with sliding screens due to lever projection. Use swinging screens with these levers.

Sliding French Door – Nobilus pull handles are recommended for use with sliding screens.

- NOTES**
- Not all available handle, escutcheon, finish combinations are pictured. See chart for details.
 - Swinging multipoint handle sets can be specified to accommodate 1 3/4" or 2 1/4" panel doors.
 - All sliding doors are factory fitted with door stops that reduce the net clear opening by 3/4" because of lateral projection on the TLO and HLO pulls.

* Due to interference with the keyed cylinder, only the HLO pull is available in the active panel key function for Sliding Patio Doors. No restrictions exist for Sliding French Doors.

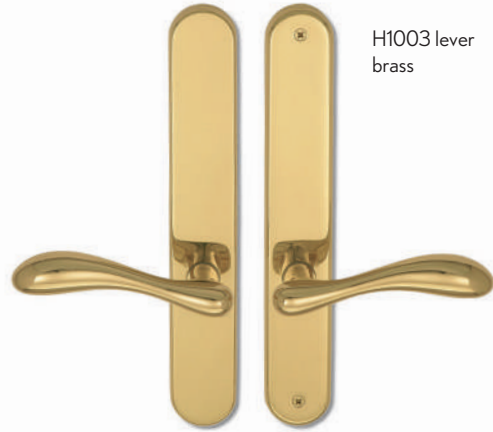

Valli&Valli

One look at the cool modern lines and classic curves of the Valli&Valli Collection and you recognize their uniquely Italian flair. Each elegant handle set is crafted in solid brass or stainless steel and finished to lasting perfection. While inspired by prestigious designers, art deco architecture, and contemporary fashion, Valli&Valli draws on seventy years of experience in manufacturing to produce strikingly stylish pieces whose function is as enduring as their form.
