Ultrex

Ultrex is much more than a cladding material like aluminum or vinyl. It comprises the amazingly durable backbone of every Integrity window and door. A revolutionary pultruded fiberglass material, Ultrex contributes 15 years of proven field performance and advancement into every Integrity product. Ultrex is twice as strong as steel and eight times stronger than vinyl. It also deflects heat up to 350° Fahrenheit and expands/contracts at the same minimal amount as glass, so extreme temperature fluctuations will not compromise longevity or performance. Ultrex offers superior UV resistance thanks to the smooth mechanically bonded acrylic cap that is applied through a patented finishing process. The result is a strong, durable, stable, non-corrosive window and door that will deliver consistent performance from the day you place your order.

Wood-Ultrex Series

Wood-Ultrex products have the same durable Ultrex construction and exterior as our All Ultrex products, but feature rich finely milled pine interiors. Wood-Ultrex windows and doors feature five hardware finishes, five exterior colors, numerous grille options and configurations, and an array of sizing options. Wood-Ultrex products are ENERGY STAR qualified, NFRC rated and have received Hallmark Design Pressure certification from the WDMA.

Factory mulling reduces on site labor and eases installation.

Pre-attached Folding Nailing Fin for easy installation.

Factory-applied Jamb Extensions save time and labor.

Factory-applied White Pre-Finish (interior) reduces job site finishing.

Green

Everyday, Integrity from Marvin Windows and Doors approaches our business with one question, "How can we do it better?" From creating energy efficient windows with a life cycle that far outlasts the competition, to ensuring we lessen our impact in all steps of manufacturing, we provide windows that make a greener and brighter future.

- EPA designated MACT pultrusion facility
- ISO-9001:2000 and ISO-14001:2004 certified Fargo manufacturing facility
- Award winning recycling and waste management program
- 39% less embodied energy than vinyl
- 15% - 33% recycled glass content
- ENERGY STAR qualified performance on all standard products
- Low E II insulated glass with Argon standard on all products
- Sustainable Forestry Initiative (SFI) wood

Contributes to 6 LEED residential program categories which deliver a total potential point value of 6 points.

Delivery

A remodeling project can be difficult enough to manage without worrying about your window order. Integrity's 10 calendar day delivery has been consistently delivering complete defect-free window and door orders with a 99.5% success rate for over 10 years. This reliable speed and consistency enable Integrity to deliver your project's windows and doors only when you need them, reducing exposure to job site damage and helping to ensure that your project runs smoothly and stays on schedule.

Stay flexible! Integrity's amazing delivery lets us be flexible to your specific needs. Our delivery allows us to batch your order, perform direct drops, deliver within a specified week and respond to unforeseen changes that might threaten to delay your project - now that is flexibility that can benefit any project.

Fast consistent delivery allows for scheduling flexibility on any project.

Service and Warranty

Integrity from Marvin is supported by Marvin's renowned commitment to service and a comprehensive 10/20 warranty. Integrity's commitment to service begin in 1994 when Marvin founded Integrity Windows and Doors on the premise of providing professional building firms dependable high performance windows and doors that were specifically designed for their requirements - performance, value and service. Integrity's commitment to service starts with our products, but continues through our factory services, independent dealers and Integrity Support Group. Unique delivery needs, specifications, shop drawings, performance documentation - Integrity can accommodate your remodeling project's unique needs.

Visit www.integritywindows.com and see what Integrity can do for your next project.

Warranty: Integrity® from Marvin products are covered by a limited warranty guaranteeing they'll remain free from defects in manufacturing, materials and workmanship for up to 10 years from the purchase date. We also offer a special 20-year warranty on our insulating glass, protecting it against visible obstruction caused by a failure of the insulating glass air seal. See your dealer or visit our web site www.integritywindows.com for more information.
