TruStile Upends the Notion that Modern Equals Flush

Clean, strong lines. Custom design options. Bold accents. This collection radically alters the concept of what a door can bring to today's modern and contemporary designs.

TM13000 in MDF with kerf cut reveal

Our **Tru&Modern™ Door Collection** features over 100 contemporary door styles and is centered around crisp stacked rails constructed in our authentic stile and rail method. Separate components fit together with 90 degree joinery creating crisp lines and dimension.

Choose from either 9 or 13 stacked rail designs available in oversized wide stiles, organic asymmetric stiles or standard 5" stiles to fit your modern design objective. Two reveal options allow you to define the design. Select either a ⅛" radius reveal for a clean dimensional look or a ¼" kerf cut for a bold horizontal line.

TruStile has taken the collection a step further with an exciting new collection of materials and inserts. We've partnered with Edelman® Leather to offer the finest leather available to be substituted for any wood panel or rail. The combination of wood and leather is a dynamic duo. Natural texture plus a bit of intrigue give this door a one of a kind expression.

In addition to leather, TruStile is also pleased to announce the addition of metal inserts from architectural supplier Chemetal®. Particularly popular in today's interiors are warm and textured metals. Again, these metals can be used in place of any wood panel or rail to provide depth to a modern look.

TM9130 in LVL with Chemetal® Patina Etruscan metal panels.
1 ## Door Style

Choose a TM door style (available in 9 or 13 rail configurations) with or without inserts. Then select a stile option: wide, asymmetric or standard 5-inch.
2 ## Wood Species

Select from 20 wood species or paint-grade MDF.
Wenge   *Walnut*   *Bamboo*   *MDF*

3 ## Reveal Option

Define the design with minimalist appeal and detail.

Reveal options only available on stacked rail doors

¼" Kerf Cut
Bold simple lines

⅛" Radius Reveal
Clean dimensional look

4a ## Material Inserts

If your door style has an insert choose from glass, resin, leather, metal or a flat wood panel.

*Leather*   *Metal*   *Glass*   *Resin*

4b ## Sticking Options

If you choose to substitute a rail with one of the materials (from step 4), elect a profile option to frame the insert: Square Stick or One Step

Square Stick (SS)

*Square Stick (SS)
Compression Fit*

One Step (OS)

5 ## Custom Dimensions

Further customize your door design by changing the stile and rail dimensions.
